

# SAPERA

## ENERGY MANAGEMENT SERVICE

A comprehensive and reliable energy management solution.

SAPERA is a proven & systematic approach to understanding your energy landscape through data analytics, supported by engineering and project delivery expertise from EM3

## WHAT MAKES EM3 UNIQUE?

### Experience:

Hands-on Energy experience & innate understanding of multiple industries

### Scale:

Global Industrial Energy Efficiency Team. Working with multi-site global networks

### Collaboration:

We become active players in your energy team. EM3 do the heavy lifting for you.

### Data & Engineering:

Cutting edge data analytics with technical engineering expertise

# SAPERA FEATURES

## Live Dashboards

See all energy information in one visualisation. Complete with summary statistics and graphics - all built using EM3's in-depth analysis

## Action Insights

Search & edit all energy actions. These practical insights are compiled by EM3 experts to drive real world energy savings

## Simplified Reporting

Generate reports for a date range. Illustrate site summary information & display relevant details with graphical visuals

## Energy Eye

A closer look at your energy. Browse any meter or Energy Performance Indicator (EnPI) and plot it for your selected date range

## Capacity Tool

Check utility capacities and add in potential new loads to calculate future requirements

## OUR CUSTOMER PERFORMANCE

### Energy Actions

**2,100+**  
IDENTIFIED

### Value of Energy Actions

**€4,800,000**  
SAVED

### Kg CO<sub>2</sub> Saved

**734,000,000**  
VERIFIED

### Average R.O.I.

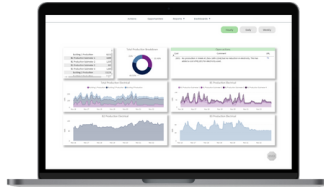

**1-2**  
YEARS

### Increase Capacity

### Monitor CO<sub>2</sub> Usage

### Understand Energy
